A guide to provisioning.

The following form allows you to order some provisioning for your cruise; the objective is to save your time locating all your groceries when you arrive.

Recommendations

- At certain times of the year it can be hot, on average 1 litre of water per person per day is a good guideline to work on.
- Please bear in mind that goods will not stay fresh indefinitely and that the fridges are run from the battery and do not take to being jammed packed full.
- On some boats there are small ice compartments in the fridges for Ice only.
- More goods can be bought on route and of course you can always visit the local restaurants that you will encounter during the cruise.
- Any provisioning packs ordered will be on board for your arrival.

IMPORTANT NOTE

This form should be completed and returned to us no later than 14 days prior to departure.

Prices are correct at the time of print, but may be subject to change without notice.

There must be a minimum payment of 100 Euros. All payments should be made locally upon your arrival by credit card (3% charge) or local currency.
